

About CEED:

Centre for Environment and Energy Development (CEED) is a solutions-driven organization dedicated to fostering an enabling ecosystem for scaling up investments in low-carbon development pathways and accelerating climate action. CEED's work primarily focuses on addressing climate change with key initiatives in energy transition, ambient air quality, circular economy, and clean water for all.

Job Title: Associate- Clean Transport

Organization: Centre for Environment and Energy Development (CEED)

Location: Gurugram, Haryana

Experience: Minimum 2 years

Job Description:

CEED is seeking a motivated and passionate individual to join our team as an **Associate, Clean Transport** with a minimum experience of 2-3 years in relevant sectors. The successful candidate will play a pivotal role in advancing our initiatives related to Clean Transport, Infrastructure, Green Cities, Connectivity, and Sustainable Mobility. This role is crucial as we look to expand our network and impact in the sustainable transport sector.

Responsibilities:

- Conduct in-depth research on sustainable transport policies at the regional level, analyzing the relationship between regional policies and sustainable transport, and assessing regional competitiveness.
- Gather and analyze statistical data, regional development strategies, and operational programs that support sustainable transport.
- Conduct comprehensive analyses across different transport modes, including road, rail, aviation, and marine.
- Evaluate state and central policies on sustainable mobility, public transport, and electrification, and contribute to sustainable transport planning at local, state, and national levels.
- Utilize GIS and Geoportal capabilities for comparative analysis in regional transport development.

- Coordinate with government agencies, experts, and civil society organizations to collect qualitative data and facilitate stakeholder consultations.
- Effectively communicate research findings in diverse formats tailored for stakeholders across government, private, and non-government sectors, with a focus on influencing policy and practice.

Qualifications:

- Master's or PhD in sustainability, sustainable transport, environmental planning in the transport sector, or a related field.
- Minimum of 2 years of relevant professional experience.
- Strong understanding of the transport sector, including policy frameworks and the transition towards sustainable transport.
- Proven experience in research, data analysis, and report preparation.
- Excellent written and verbal communication skills, with the ability to convey complex ideas to diverse audiences.
- Demonstrated ability to work collaboratively in multidisciplinary teams and build relationships with stakeholders from diverse backgrounds.
- Strong project management skills, with the ability to prioritize tasks, meet deadlines, and adapt to changing circumstances.
- Proficiency in Microsoft Office Suite and other relevant software applications.
- Knowledge of GIS, statistical analysis, or other technical tools is desirable but not required.
- Commitment to CEED's mission and values, including a dedication to environmental sustainability and social justice.

Application Instructions:

Please submit the following:

- A cover letter explaining how your academic background and skills meet the requirements of this position.
- Updated Resume in PDF
- Writing samples or reports.

Deadline for Applications: 31st August 2024

CEED is an equal opportunity employer and welcomes applications from individuals of all backgrounds. We encourage candidates from underrepresented communities to apply. Only shortlisted candidates will be contacted for interviews. Thank you for your interest in joining the CEED team!
