

Project Manager, Pune

Location: Pune, India

Duration: 1.5 Year (Initially, possibility of extension)

Job Summary: We are looking for **skilled and experienced Project Manager** to be based in Pune for an initial tenure of one and a half years. The ideal **candidate should be fluent in Marathi (mandatory)** and English.

Key Requirements:

- **Location:** Pune (initial period of 1.5 years)
- **Languages:** Proficiency in **Marathi and English** is essential.
- **Experience Required:** Minimum of **8-year prior experience** in public transport projects such as DPR for planning and design of public transport (PT), transport demand modelling, ridership assessment and enhancement studies etc. Experience in alignment planning and design for elevated flyovers, rail and bus based systems and exposure to economic and financial appraisals is preferred.

Qualifications & Skills:

- **Bachelor's in Civil Engineering/Architecture, and Masters in Transport Planning/Engineering is mandatory**
- The **candidate has to efficiently manage and optimize inputs and outputs from a specialized expert team in place**, which includes professionals in Transport Demand Modelling, Alignment Design, Train Operation Planning, Power Supply & Traction, Financial & Economic Analysis.
- Proven track record of handling DPR-related tasks, feasibility studies, and stakeholder engagement.
- Familiarity with metro rail guidelines, government regulations, and approval processes at MoHUA, GoI.
- Strong leadership and coordination abilities.
- The selected candidate will be responsible for overseeing project activities, ensuring timely execution, and coordinating with various stakeholders.
- Excellent communication and reporting skills.

If you meet the above requirements and are passionate about improving urban public transport and mobility, we encourage you to apply and send your CV to **Sucheta @ 9573868899, sucheta.y@umtc.in / Vasudha @ 9899545585, vasudha.misra@umtc.in**
